

Student Success Advising Agreement

Your first step towards graduation begins today with the advising/registration process. At WVU Tech this process is centered on one goal: helping you to acquire an academic mindset that will lead to your current and future success both inside and outside of the classroom. For this process to work you must become more than a passive participant. You must become an active partner with your **student success advisor**.

While you are ultimately responsible for the choices you make, your student success advisor will be here to help you along the way. Each of us has a role to play in your education, and we must agree to work together openly and responsibly.
